Look at This Situation:  
Is it you?

Your inbox overflows with memos, reports, publications and more — and all of it needs your immediate attention.

You arrive at work to find your most trusted and productive “right-hand” worker has called in sick.

On your desk are three mind-bending, challenging projects and today is the deadline for two of them. You settle down to work.

The first telephone call of the morning comes in. There’s a crisis situation that requires you to take immediate action.

Crisis averted, you turn your attention back to your deadline projects, but you’re constantly interrupted by phone calls. Not only that, but people keep popping in with questions, problems and updates.

You suddenly realize, to your horror, you’re due at a meeting in 10 minutes — and you’re completely unprepared.

Lately, you’ve been having too many days like this.

Is there a way to deal with it all?

Yes! Attend Managing Multiple Priorities, Projects and Deadlines and you can easily handle seemingly impossible priorities and demands — without the long work days, stress-filled schedules, burnout, chaos and panic that may have plagued you in the past.

This powerful one-day seminar teaches you the all-important skills to help you deal with dozens of top priorities. Filled with practical how-to strategies, this training will ensure you:

- Stop wasting time and get the clock working for you instead of against you.
- Take control of your multiple projects, even when they’re all top priorities.
- Handle with ease all of the unexpected demands and unplanned situations that destroy the most careful scheduling.
- Stay cool, calm and collected when the pressure is overwhelming and stress threatens your effectiveness.
